

# Custom Software Development for Digital Signage Company

## PROJECT DETAILS

 Custom Software Development

 Jan. 2024 - Dec. 2024

 Confidential

“  
"Their collaborative approach and flexibility ensured the project progressed smoothly."

## PROJECT SUMMARY

Facile Technolab developed a scalable app on the .NET Core MVC framework for a digital signage company. The team handled front- and backend development, database design, performance optimization, and testing.

## PROJECT FEEDBACK

Facile Technolab delivered the app on time, within budget, and according to specifications. The team's project management was great — they adhered to deadlines, provided regular updates, and addressed queries and concerns promptly. Their dedication and strong problem-solving skills stood out.

## The Client

Please describe your company and position.

I am the Director of Waulite Technologies

## The Challenge

What specific goals or objectives did you hire Facile Technolab to accomplish?

- We hired Facile Technolab to develop a scalable application on the .NET Core MVC framework as part of our new technology stack.

**Naresh Sadasivan**  
Director, Waulite Technologies

**Information technology**

**Mumbai, India**

### CLIENT RATING

**5.0**

Overall Score

Quality: 5.0

Schedule: 5.0

Cost: 5.0

Would Refer: 5.0

## The Approach

How did you find Facile Technolab?

Online Search

Why did you select Facile Technolab over others?

- Close to my geographic location
- Pricing fit our budget
- Good value for cost
- Referred to me

How many teammates from Facile Technolab were assigned to this project?

2-5 Employees

Describe the scope of work in detail. Please include a summary of key deliverables.

The project focused on building a scalable, secure, and maintainable application using the .NET Core MVC framework. Waulite Technologies designed the architecture and technical roadmap, while Facile Technolab Team along with our internal Team handled implementation and development based on the blueprint.

## The Outcome

What were the measurable outcomes from the project that demonstrate progress or success?

The project delivered significant outcomes, including

- On-time delivery
- Faster system performance
- Seamless third-party integrations
- User-friendly interface that received positive feedback.

## Describe their project management. Did they deliver items on time? How did they respond to your needs?

They maintained clear communication, provided regular updates, and adhered to the agreed timeline, delivering all milestones on time. They were responsive to our needs, addressing challenges proactively and incorporating feedback seamlessly. Their collaborative approach and flexibility ensured the project progressed smoothly and aligned with our expectations.

## What was your primary form of communication with Facile Technolab?

- Virtual Meeting
- Email or Messaging App

## What did you find most impressive or unique about this company?

What stood out most about Facile Technolab was their dedication and problem-solving approach. Despite initial challenges, such as implementing real-time communication, their team demonstrated exceptional commitment, technical expertise, and collaboration to overcome obstacles. Their ability to adapt to our needs, maintain clear communication, and deliver high-quality results made them a reliable and impressive partner throughout the project.

## Are there any areas for improvement or something Facile Technolab could have done differently?

While the overall experience with Facile Technolab was positive, there is always room for improvement. The initial phases of the project could have benefited from a more streamlined onboarding process to save time. Additionally, more proactive risk identification and mitigation during the early stages of the real-time communication implementation would have helped avoid some of the initial challenges. That said, their dedication and collaborative approach effectively addressed these issues as the project progressed.
